

BUILDING THE FUTURE OF EUROPE THROUGH CULTURAL HERITAGE

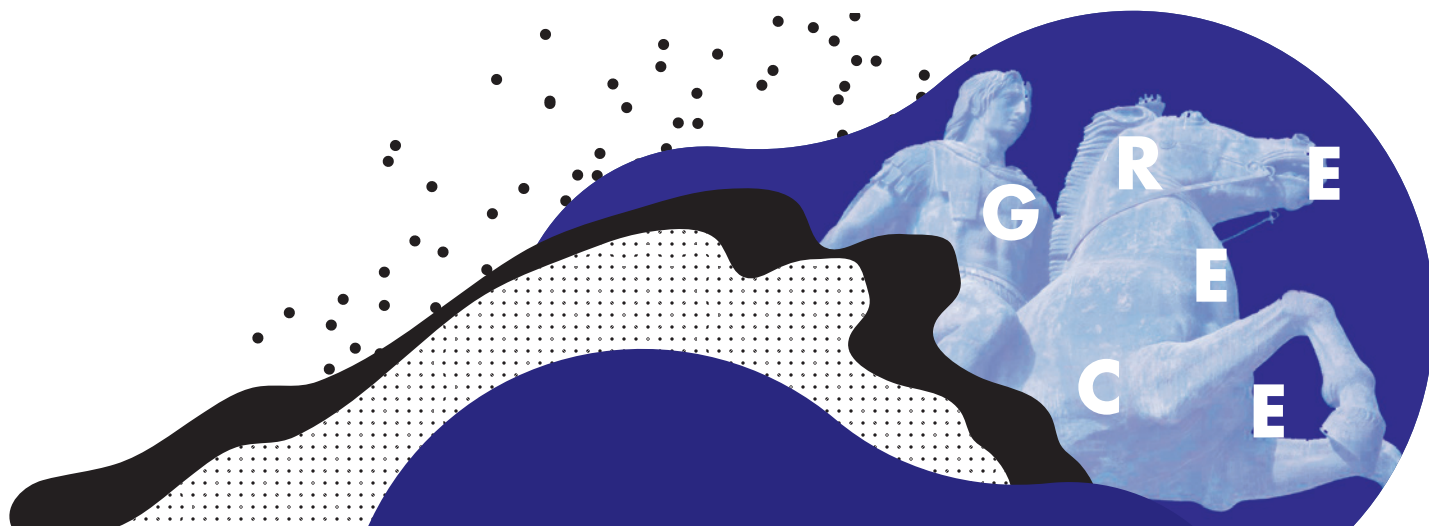

19.20.21 April 2018

2018 is the European Year of Cultural Heritage, with a series of initiatives and events. Cultural heritage comes in many shapes and forms (tangible, intangible, natural and digital) and has a universal value for us as individuals, communities and societies. As our heritage has a big role to play in building the future of Europe, it is important to preserve and pass on to future generations.

eTwinning, the largest teachers' network in Europe, has long promoted the ideas of collaboration, innovation and creativity. In this PDW, secondary education teachers throughout Europe will focus on various aspects of national, regional and local level Cultural Heritage, unveiling its potential for those involved in secondary education and showcasing how eTwinning can contribute to the process.

The main objectives of the PDW are then to:

- | *Combine issues of Cultural Heritage with education and highlight how students can discover and engage with Europe's cultural heritage and reinforce a sense of belonging to a common European space.*
- | *Prepare teachers to exploit the potential of Cultural Heritage in schools and in their eTwinning activities.*

Professional Development WS (PDW)

Target group: Teachers of secondary education (age group 12-18)

Hashtags: #eTwinning #eTwinning

Thursday, 19 April
